

PRASHANT KUMAR

Full Stack Developer (.NET & Angular)

Patna, Bihar, India | +91 7739541707 | prashantkumar77395@gmail.com | github.com/prashant2011shant

PROFESSIONAL SUMMARY

Full Stack .NET Developer with **3+ years of experience** building and maintaining enterprise, government, and defense-sector applications using **C#, ASP.NET Core, ASP.NET MVC, ASP.NET Web Forms, ASP.NET Core Web API, Angular 17, TypeScript, JavaScript, and SQL Server**. Experienced in **RESTful Web APIs, CRUD operations, Entity Framework, LINQ, Dependency Injection, JWT Authentication, Authorization, and RBAC**.

Strong knowledge of **OOP, SOLID principles, MVC architecture, database optimization, legacy modernization, debugging, root-cause analysis, IIS deployment, and production support**. Delivered solutions for **DRDO, State Election Commission Bihar, ICDS Bihar, and BPBCC** across the **SDLC and Agile development lifecycle**.

TECHNICAL SKILLS

Languages:- C#, TypeScript, JavaScript, HTML5, CSS3

Backend & Frameworks:- ASP.NET Core, ASP.NET Core Web API, ASP.NET MVC, ASP.NET Web Forms, Entity Framework, LINQ, Dependency Injection

Frontend:- Angular 17, TypeScript, JavaScript, Bootstrap 5, jQuery, HTML5, CSS3

Database:- SQL Server, Stored Procedures, Views, Functions, Complex Queries, Query Optimization

Security:- JWT Authentication, Authentication & Authorization, Role-Based Access Control (RBAC)

Architecture & Concepts:- MVC Architecture, REST API Design, OOP, SOLID Principles, SDLC, Agile Development

Tools & Deployment:- Visual Studio 2019/2022, Git, GitHub, Postman, IIS Server

Development & Support:- Debugging, Root-Cause Analysis, Performance Optimization, Production Support, Legacy Modernization

PROFESSIONAL EXPERIENCE

Software Education & Research Pvt. Ltd. | Software Developer

Project: State Election Commission, Bihar | May 2026 – Present

- Develop and maintain government election management applications using **ASP.NET Web Forms, ASP.NET Core, C#, JavaScript, and SQL Server**.
- Build and integrate **RESTful Web APIs**, implementing **CRUD operations, business logic, API integrations, and database-driven features** based on functional requirements.
- Design and optimize **SQL Server Tables, Stored Procedures, Views, and complex queries** to improve application functionality and database performance.
- Modernize legacy modules through **feature enhancements, debugging, root-cause analysis, performance optimization, and maintainable .NET development practices**.
- Deploy and support applications on **IIS Server**, resolve production issues, and collaborate with developers and stakeholders following **SDLC and Agile practices**.

Technologies: ASP.NET Core, ASP.NET MVC, ASP.NET Web Forms, C#, ASP.NET Core Web API, SQL Server, JavaScript, Bootstrap, Git, IIS

PI System Pvt. Ltd. | Software Developer

Projects: ICDS Bihar & BPBCC | March 2026 – May 2026

- Developed and maintained government-sector web applications using **ASP.NET Web Forms, ASP.NET MVC, C#, JavaScript, and SQL Server**, delivering business-driven modules and **CRUD operations**.
- Managed **SQL Server databases**, including tables, Stored Procedures, queries, and server-side business logic, while integrating **RESTful APIs** for application data exchange.
- Enhanced legacy applications through **feature development, defect resolution, debugging, root-cause analysis, and performance/stability improvements**.
- Collaborated with development teams and stakeholders to deliver application enhancements and provide **production support, maintenance, and troubleshooting**.

Technologies: ASP.NET MVC, ASP.NET Web Forms, C#, SQL Server, REST API, JavaScript, Bootstrap

OM Software | Software Developer

Project: Automated Inventory Management System (AIMS) – DRDO | August 2023 – March 2026

- Engineered **ASP.NET Core Web APIs and Angular 17 applications** for inventory and ammunition management using **C#, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, and SQL Server**.
- Developed **RESTful Web APIs** with CRUD operations, business logic, data processing, and database-driven workflows, integrating Angular interfaces for seamless data retrieval and transaction processing.
- Implemented application security using **JWT Authentication, Authorization, and Role-Based Access Control (RBAC)**, while optimizing **SQL Server Tables, Stored Procedures, queries, and database operations**.
- Delivered modules for **stock monitoring, inventory tracking, ammunition management, and operational reporting**, applying **OOP, SOLID principles, MVC architecture, and clean coding practices**.
- Participated across the **SDLC**, including requirement analysis, development, testing, debugging, deployment, and maintenance, resolving application issues to improve system **reliability, performance, and maintainability**.

Technologies: ASP.NET Core, ASP.NET Core Web API, Angular 17, TypeScript, C#, SQL Server, JWT Authentication, JavaScript, Bootstrap, Git

ACADEMIC PROJECT

Loan Management System

- Built a loan management application using **ASP.NET Web Forms and SQL Server**.
- Developed functionality for **EMI calculation, repayment tracking, and loan management**.

EDUCATION

Master of Computer Applications (MCA)

Swami Vivekanand Subharti University | 2023 | 68%

Bachelor of Computer Applications (BCA)

Magadh University | 2019 | 67%
